

## All Hazards Incident Management Team

MAY 4-8 ▶ 8AM-5PM

IEMA - OHS  
4800 W. WABASH, SPRINGFIELD

**NO COST TRAINING FOR  
ILLINOIS STUDENTS AND DEPARTMENTS**

*Out of state - \$1000*

The goal of this five-day course is to help students prepare to serve in a specific Incident Management Team (IMT) position during a large and/or complex incident or major event or to support an existing IMT structure. The course will also help ease the transition to an incoming Incident Management Team that may be required by large scale, long duration, or complex incidents. This course consists of lecture/discussion, unit activities and a simulated incident. The simulated incident will present a demanding incident management environment similar in nature to a large - scale incident.

### PREREQUISITES:

IS-100.c

IS-200.c

ICS-300

ICS-400

IS-700.b

IS-800.c

*IFSI prerequisites are based on Illinois and FEMA standards. Equivalences from other agencies will be reviewed upon request.*
